

Microsoft 365

Certified Endpoint Administrator Associate

Materials & teaching in English

Enhance your competencies in Microsoft 365 & Windows

Gain a general understanding of Cloud Computing and the Microsoft 365 ecosystem, including the opportunities it can provide for your organization. The course covers some of the core functionalities in Microsoft 365 Services, Security, Compliance, Privacy, and Trust, as well as how to set up your accounts.

The course is designed for IT professionals who need to deploy and manage Cloud services in an organization or those who want a fundamental understanding of Cloud concepts and the possibilities they offer, including Software-as-a-Service (SaaS) with a focus on Microsoft 365 services.

Learn how to plan, implement, and manage an Endpoint deployment strategy using contemporary administration and integration with Microsoft Intune. In the course, you will acquire the necessary skills to

install, configure, support, troubleshoot, and maintain a Windows client environment, mobile devices, and applications.

The course curriculum aligns with the certifications:

- MS-900 (Microsoft 365 Fundamentals)
- MD-102 (Endpoint Administrator)

As part of this e-learning course, we offer 1 certification attempt. This must be held within 1 month after the end of the course - otherwise the offer will lapse. Certificates are taken at the end of the course

You will learn

Core Cloud & Microsoft 365 Concepts

- Understand Microsoft cloud principles and service benefits
- Explore Office 365 collaboration and communication tools
- Use Exchange, SharePoint, and Skype for Business
- Identify key features of Microsoft 365 and Windows

Endpoint Management with Microsoft

- Manage endpoint policies, apps, and updates via IntuneIntegration
- Use Intune for cross-platform device administration
- Secure endpoints with Microsoft Defender for Endpoint
- Deploy and manage Windows Autopilot

Windows Enterprise & Productivity Tools

- Examine Windows Enterprise functionality and use cases
- Apply Windows within Microsoft 365 environments
- Leverage Microsoft productivity and collaboration apps
- Support business operations with integrated tools

Endpoint Deployment at Scale

- Implement scalable deployment strategies for endpoints
- Configure devices across diverse OS and hardware platforms
- Automate setup with Windows Autopilot and Intune
- Ensure compliance through endpoint configuration

Microsoft Identity & Access Management

- Manage identities using Azure Active Directory
- Configure authentication and access management policies
- Implement Microsoft Entra ID for secure access
- Apply identity solutions across devices and services

Security, Compliance & Support Solutions

- Apply Microsoft 365 security and compliance features
- Monitor endpoint health and system performance
- Implement data protection and device encryption
- Access Microsoft support and troubleshooting tools

The course is for you if you...

- ✓ Have experience using a PC and Windows.
- ✓ Have a basic understanding of Microsoft services.
- ✓ Possibly have experience with cloud infrastructure.
- ✓ Are motivated and have ambitions to work with Microsoft 365 and Windows.

Course structure

The e-learning course is divided into in-depth sessions with associated Labs and MeasureUp tests, so you gain a lot of knowledge and at the same time you can test your readiness. As a supplement to the e-learning course, you also get access to a whole library of e-book

Certification

You have the option to take certifications MS-900 or MD-102. Included in this e-learning package is 1 certification attempt. Please note that this trial must be held within 1 month of the end of the course - otherwise the offer will lapse. Certifications are taken after completing the course. When you contact us, we will send you a voucher to book the certification.

Careercoach

You also can spar with Itucation's career coach regarding CV, application and job strategy. If you wish to take advantage of this offer, please send an email to kurser@itucation.dk
